

The map displays the geographical distribution of sewerage projects in Nagai City. Key features include:

- Project Areas:** Outlined by thick black lines, covering regions like Nakagawa, Nishikubo, and others.
- Main Trunk Lines:** Indicated by blue dashed arrows, showing the primary flow paths of wastewater.
- Treatment Plants:** Marked with green squares, such as the one near the center-right.
- New Trunk and Branch Lines:** Shown as red solid lines, indicating new infrastructure.
- New Branch Line Preparation:** Highlighted with yellow ovals, representing areas where new branch lines are being planned.
