Aquarium		Non-burnable	If it does not fit into the designated bag, or it is heavy enough to break the bag, it is classified as
Ashes		Burnable	A little at a time.
Baby bottle	Plastic	Non-burnable	
Baby carriage/stroller		Oversized	
Bag, purse	Leather, vinyl	Burnable	
Bamboo blinds		Burnable	Those that do not fit into the designated bag are classified as oversized.
Bar soap		Burnable	
Barbeque stove		Non-burnable	Those that do not fit into the designated bag are classified as oversized.
Barrel	Wood	Burnable	Those made of plastic go into non-burnable.
Baseball bat	Wood	Burnable	Those made of metal go into non-burnable.

Garbage Disposal Guide (Alphabetical Order)

Product name	Material	Classification	Notes
Basin	Plastic, metal	Non-burnable	
Bath mat	Urethane	Burnable	Cut into 50cm squares.
Bathing bucket	Plastic	Non-burnable	
Bathmat	Cotton	Burnable	
Bathroom scale	Metal	Non-burnable	Remove any batteries and put out with hazardous waste.
Bathtub cover	Plastic	Non-burnable	Those which do not fit into the designated bag are classified as oversized.
Batteries		Hazardous	Place in transparent vinyl bag.
Batteries	Button cell battery, rechargeable battery	Not collectable	Please take back to dealer/place of purchase.
Batteries		Not collectable	Please consult with your place of purchase or a waste disposal company.
Beach sandals		Burnable	
Bed frame		Oversized	
Bed mat		Oversized	No springs.
Beer bottle		Recyclable (empty glass bottles)	
Belt	Synthetic fiber, leather, synthetic leather	Burnable	Any metal goes into non-burnable.
Bento box	Plastic	Non-burnable	
Bicycle		Oversized	
Bird cage	Wood, bamboo	Burnable	Any metal goes into non-burnable.
Blanket		Recyclable (cloth)	Those which cannot be cleaned go into burnable.
Blinds		Oversized	
Blow dryer		Non-burnable	Cut cord into 50cm segments.
Body warmer heat pack (disposable)	Iron powder, activated carbon	Burnable	
Bookshelf		Oversized	

Garbage Disposal Guide (Alphabetical Order)

Product name	Material	Classification	Notes
Boots		Burnable	
Bottle cap (metal)	Metal	Non-burnable	
Bottle cap (plastic)	Plastic	Recyclable (plastic)	Eg. Those from PET bottles, etc.
Bowling ball		Non-burnable	
Box cutter		Non-burnable	
Box cutter blade		Non-burnable	Wrap in newspaper, etc., and write “危険” or “キケン” (dangerous) on the outside.
Brick		Non-burnable	If in large quantities, it is classified as industrial waste.
Briquettes		Burnable	A little at a time.
Broom (metal, plastic)	Metal, plastic	Non-burnable	
Broom (wood, bamboo)	Wood, bamboo	Burnable	Those which do not fit into the designated bag are classified as oversized.
Brush	Plastic	Non-burnable	
Bucket	Plastic	Non-burnable	
Button cell battery (watch battery)		Not collectable	Please take back to dealer/place of purchase.
Calculator		Non-burnable	Remove batteries and place into transparent bag to go out with hazardous waste.
Calendar	Paper	Recyclable (used paper)	Metal parts are non-burnable.
Camera	Metal, plastic	Non-burnable	
Can (empty)	Metal	Recyclable (empty cans)	Those which cannot be cleaned go into non-burnable.
Can pull tab		Recyclable (empty cans)	Place into the can or into the bag along with empty cans.
Candle		Burnable	
Cap (metal)	Metal	Non-burnable	Eg. Those from nutrition drink bottles, etc.
Cardboard		Recyclable (used paper)	Bundle together crosswise with a paper string.
Carpet		Burnable	Cut into 50cm segments. Those which do not fit into the designated bag are classified as oversized.

Garbage Disposal Guide (Alphabetical Order)

Product name	Material	Classification	Notes
Cash card		Non-burnable	Cut up first.
Cashbox (portable)	Metal	Non-burnable	If it does not fit into the designated bag, or it is heavy enough to break the bag, it is classified as
Cassette cylinder ※ (for tabletop stove)		Non-burnable	Make a hole in the container and circle the opening with a marker, etc. Let the gas inside out completely.
Cassette tape	Polyethylene terephthalate (PET)	Non-burnable	
Cassette tape case (soft plastic)	Soft plastic	Burnable	
Cassette tape case (hard plastic)	Hard plastic	Non-burnable	
CD (compact disk)		Non-burnable	Same as DVDs
CD case	Hard plastic	Non-burnable	Same as DVDs
Charcoal briquette		Burnable	A little at a time.
Charcoal briquette foot warmer	Metal	Non-burnable	
Chinaware, porcelain		Non-burnable	Wrap in newspaper, etc., and write “危険” or “キケン” (dangerous) on the outside.
Clay (earthenware)	Clay	Non-burnable	
Clock (wristwatch, alarm clock, etc.)	Metal, plastic	Non-burnable	Remove any batteries and put out with hazardous waste. Bring button cell batteries to place of
Cloth wrapper		Burnable	
Clothespin	Plastic	Non-burnable	
Clothing	Cotton	Recyclable (cloth)	Place in a transparent vinyl bag. There is no need to remove any buttons or fasteners.
Clothing (cotton, down)	Cotton, down	Burnable	Items containing cotton or down go into burnable waste.
Clothing dresser (plastic) up to 5 pieces	Plastic	Oversized	
Clothing dresser (wooden)	Wood	Oversized

Glass bottle (for plum wine, pickles, etc.)	Glass	Recyclable (empty glass bottles)	
Glass cleaner	Plastic container	Burnable	Too difficult to clean completely.
Glasses		Non-burnable	
Globe		Non-burnable	
Gloves	Leather	Burnable	
Glue container (plastic)	Plastic	Recyclable (plastic)	Those that cannot be cleaned go into non-burnable.
Glue container (glass)	Glass	Recyclable (empty glass bottles)	Those that cannot be cleaned go into non-burnable.
Goggles	Plastic	Non-burnable	
Guitar		Oversized	
Hair brush	Plastic	Non-burnable	
Hairspray can	Metal	Non-burnable	Make a hole in the container and circle the opened area with a marker, etc.. Let the gas inside out completely.

Garbage Disposal Guide (Alphabetical Order)

Product name	Material	Classification	Notes
Hanger	Wire, Plastic	Non-burnable	May also be collected at a dry cleaner.
Hanger	Wood	Burnable	
Hard disk/magnetic disk		Non-burnable	The case is also non-burnable.
Heat and cold insulation material		Burnable	
Helmet	Plastic	Non-burnable	
Herbicide container (empty)	Plastic	Non-burnable	
Highlighter pen	Plastic	Non-burnable	
Hors d'oeuvre container	Plastic	Recyclable (plastic)	Wash and let dry. Those that cannot be cleaned go into burnable.
Hose		Burnable	Cut into 50cm segments.
Hot carpet	Cotton, acrylic	Oversized	
Hot plate	Metal	Non-burnable	Cut cord into 50cm segments.
Hot water bottle	Metal, Plastic	Non-burnable	
Ice pick	Metal	Non-burnable	Wrap in newspaper, etc., and write "危険" or "キケン" (dangerous) on the outside.
ICE-NON body cooling sheets	Polyethylene	Burnable	
Incandescent light bulb		Non-burnable	Wrap in newspaper, etc.
Ink ribbon	Polyethylene	Burnable	
Inkjet container	Plastic	Burnable	Depending on the store, there may also be a collection service.
Insecticide container	Metal	Non-burnable	Make a hole in the container and circle the opened area with a marker, etc.. Let the gas inside out completely.
Instant water heater		Oversized	
Iron	Metal	Non-burnable	Cut cord into 50cm segments.
Juicer		Non-burnable	
Kerosene pump		Non-burnable	

Garbage Disposal Guide (Alphabetical Order)

Product name	Material	Classification	Notes
Kerosene tank (plastic)	Plastic	Non-burnable	Empty the kerosene first.
Kerosene tank (plastic)		Non-burnable	Empty the kerosene first.
Kettle	Metal	Non-burnable	
Keyboard (instrument)		Non-burnable	Those that do not fit into the designated bag are classified as oversized.
Kitchen knife		Non-burnable	Wrap in newspaper, etc., and write “危険” or “キケン” (dangerous) on the outside.
Kitchen wagon (rack w/ wheels)		Oversized	
Knife (hunting, etc.)		Non-burnable	Wrap in newspaper, etc., and write “危険” or “キケン” (dangerous) on the outside.
Knitting machine		Oversized	
Kotatsu (table w/heater attached)		Oversized	
<i>Kotatsu</i> mat		Burnable	Cut into 50cm squares. Those that do not fit into the designated bag are classified as oversized.
Kotatsu tabletop		Oversized	
Laundry drying rod		Oversized	
LED bulb		Non-burnable	
Light bulb (other than fluorescent type)		Non-burnable	LED bulbs are also included.
Lighter		Non-burnable	Disassemble and let the gas out completely.
Lipstick	Plastic	Non-burnable	
Liquid detergent container	Plastic	Burnable	Too difficult to clean completely.
Lunch box		Non-burnable	
Magazines		Recyclable (used paper)	
Magic marker		Non-burnable	
Magnet		Non-burnable	
Magnifying glass		Non-burnable	

Garbage Disposal Guide (Alphabetical Order)

Product name	Material	Classification	Notes
Makeup bottle	Glass	Recyclable (empty glass bottles)	Those that cannot be cleaned go into non-burnable.
Mattress		Oversized	No springs.
Medicine container		Burnable	
Medicine, pesticides		Not collectable	Please consult with your place of purchase or a waste disposal company.
Menstrual products		Burnable	
Microwave oven		Oversized	Even those which can fit into the designated bag are classified as oversized.
MiniDisc		Burnable	
MiniDisc case	Hard plastic	Non-burnable	
Mirror		Hazardous	Place in a small clear vinyl bag.
Mixer		Non-burnable	Cut cord into 50cm segments.
Mobile phone		Small appliances	Please direct any questions to the Citizen's Division of the city hall.
Mochi-making machine		Oversized	
Mop (chemically treated cloth)	Cotton	Burnable

Zipper	Metal	Non-burnable	

= Recyclable (plastic)

= Recyclable (PET bottles)

} = Recyclable (cans)

How to dispose of spray cans and hazardous waste

◇ From April 1, 2021

Due to the frequent occurrence of fire accidents at garbage collection vehicles and garbage disposal facilities, we will change how to put out 6 items such as spray cans and rechargeable batteries to garbage collection

【Spray cans, etc. → Collected on “empty can” day】

However, if the plastic part cannot be removed, please put it out on the day for non-burnable garbage.

✂How to dispose

1. Use up the contents
2. Drill and mark
3. Separate from other empty cans and place in a colorless and transparent bag and put out on the “empty can” day.
4. However, if the plastic part cannot be removed, put it in a designated non-burnable garbage bag with other non-burnable garbage and put it out on the day of “non-burnable garb

【Rechargeable batteries, etc. → Collected on “hazardous garbage” days】

Six new items, such as rechargeable batteries, will be collected on a new “hazardous garbage” day (the same day as “burnable garbage”).

● 6 items such as rechargeable batteries to be collected

- Rechargeable battery (single unit)※1
- Mobile battery*1
- Smartphone*2
- heat-not-burn tobacco
- Rechargeable electric shaver
- Rechargeable electric toothbrush

※1 Cooperating stores (collection boxes) such as consumer electronics mass retailers also collect used items.

※2 We also collect small home appliances, so please cooperate.

※ Separate it from other hazardous waste and put it in a colorless and transparent bag and put it out on the “hazardous waste” day.

※ Please do not put out on the day of “non-burnable garbage”.

スプレー缶と有害ごみの出し方について

◇ 2021年4月1日より

収集車やごみ処理施設での発火事故が多発しているため、スプレー缶等と充電式電池等6品目のごみ収集所への出し方を次のとおり変更します。

【スプレー缶等 → 「空き缶」の日に収集】

ただしプラスチック部分がとれない場合は、「燃やせないごみ」の日にお願いします。

※出し方

1. 中身を使い切る
2. 穴をあけて印をつける
3. 他の空き缶類と分けて無色透明な袋に入れて「空き缶」の日に出す
4. ただしプラスチック部分が取れない場合は、他の燃やせないごみと一緒に指定不燃ごみ袋に入れて「燃やせないごみ」の日に出す

【充電式電池等 → 「有害ごみ」の日に収集】

充電式電池等6品目を新たに「有害ごみ」の日（「燃やせるごみ」の日と同じ日）に収集します。

●収集する充電式電池等6品目

- ・充電式電池(単体)※1
- ・モバイルバッテリー※1
- ・スマートフォン※2
- ・加熱式たばこ
- ・充電式電気シェーバー
- ・充電式電動歯ブラシ

※1家電量販店などの協力店(回収ボックス)でも回収をおこなっています。

※2小型家電回収でも回収をおこなっていますのでご協力ください。

※他の有害ごみと分けて無色透明な袋に入れて「有害ごみ」の日に出してください。

※「燃やせないごみ」の日には出さないでください。
